PROFILE

Full-stack developer with expertise in React/TypeScript and systems programming in Go, building production-grade applications ranging from real-time web platforms to peer-to-peer networking tools.

PROJECTS

typingterminal: Typing Practice Platform

Live

- Engineered and deployed a retro terminal-style typing platform with **150 active users** and **3,000+ site visits**.
- Architected real-time multiplayer races with live leaderboards and match history using Convex.
- Designed performance analytics including WPM, accuracy tracking, and historical progress insights.

Tech: React, Next.js, TypeScript, Tailwind CSS, Convex, Framer Motion

tsuna: P2P Watch Party CLI

GitHub

- Built a serverless peer-to-peer video sync system in Go using raw UDP transport and STUN-based NAT traversal, enabling sub-100ms latency playback synchronization with no central media server.
- Engineered a WebSocket signaling bridge deployed on Railway to coordinate P2P handshakes; connection becomes fully serverless after the initial hole-punch exchange.
- Developed a real-time web dashboard in Next.js with a live chatroom, session state, peer telemetry, and an animated glassmorphic UI backed by a WebSocket event stream.

Tech: Go, WebSockets, UDP/P2P, STUN, Cobra, BubbleTea, Next.js, TypeScript, Docker, Railway

atlas (uniway): Campus Navigation App

Live

- Developed an interactive campus navigation system for Manipal University Jaipur.
- Implemented real-time search, building discovery, and shortest-path routing logic.
- Integrated Leaflet maps with custom markers, overlays, and responsive interactions.

Tech: React, Next.js, TypeScript, Tailwind CSS, Leaflet

portfolio: Personal Portfolio Website

GitHub

- Built an immersive 3D WebGL portfolio using React Three Fiber with interactive scene objects and cinematic camera navigation.
- Engineered a procedural particle system with 125+ instanced meshes and real-time animations.
- Integrated GLTF models with dynamic lighting, audio controls, and GSAP-driven transitions.

Tech: React, Next.js, TypeScript, Three.js, React Three Fiber, GSAP

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Go, Python, C/C++, Swift

Frontend: React, Next.js, Tailwind CSS, shadcn/ui, Framer Motion, GSAP, Three.js, SwiftUI

Backend: Node.js, Bun, Express.js, Convex, Prisma, REST APIs, WebSockets

Databases: MongoDB, PostgreSQL, Redis, Firebase, Supabase

Tools: Git, Vercel, Docker, Railway, Figma, Postman, Leaflet, Cobra, BubbleTea, Xcode

ACHIEVEMENTS

- Built and operated a production web platform with 150+ active users and 3000+ visits.
- Accumulated 60+ GitHub stars across independently built projects.

EDUCATION

Manipal University Jaipur, Jaipur, India

B.Tech in Computer Science

CGPA: 8.0 / 10

2024 – 2028
