## PROFILE

---

Full-stack developer with strong React and TypeScript expertise, building and shipping production-grade web applications with a focus on scalable frontend systems and startup environments.

## PROJECTS

---

### typingterminal: Typing Practice Platform

Live

- Engineered and deployed a retro terminal-style typing platform with **150 active users** and **3,000+ site visits**.
- Architected real-time multiplayer races with live leaderboards and match history using Convex.
- Designed performance analytics including WPM, accuracy tracking, and historical progress insights.

*Tech: React, Next.js, TypeScript, Tailwind CSS, Convex, Framer Motion*

### goatcast: Podcast Curation Platform

Live

- Built a curated discovery platform for high-quality YouTube podcasts with structured genre taxonomy.
- Integrated YouTube Data API for automated video ingestion and metadata processing.
- Developed authenticated admin dashboard for content moderation and publishing workflows.

*Tech: React, Next.js, TypeScript, Prisma, MongoDB, YouTube API*

### atlas (uniway): Campus Navigation App

Live

- Developed an interactive campus navigation system for Manipal University Jaipur.
- Implemented real-time search, building discovery, and shortest-path routing logic.
- Integrated Leaflet maps with custom markers, overlays, and responsive interactions.

*Tech: React, Next.js, TypeScript, Tailwind CSS, Leaflet*

### portfolio: Personal Portfolio Website

GitHub

- Built an immersive 3D WebGL portfolio using React Three Fiber with interactive scene objects and cinematic camera navigation.
- Engineered a procedural particle system with 125+ instanced meshes and real-time animations.
- Integrated GLTF models with dynamic lighting, audio controls, and GSAP-driven transitions.

*Tech: React, Next.js, TypeScript, Three.js, React Three Fiber, GSAP*

## TECHNICAL SKILLS

---

**Languages:** TypeScript, JavaScript, Swift

**Frontend:** React, Next.js, Tailwind CSS, Framer Motion, GSAP, Three.js, SwiftUI

**Backend:** Node.js, Express.js, Convex, Prisma, REST APIs

**Databases:** MongoDB, PostgreSQL, Redis, Firebase, Supabase

**Tools:** Git, Vercel, Leaflet, Xcode

## ACHIEVEMENTS

---

- Built and operated a production web platform with 150+ active users and 3000+ visits.
- Open-source contributor (RUXAILAB) with 2 merged pull requests.
- Accumulated 26+ GitHub stars across independently built projects.

## EDUCATION

---

**Manipal University Jaipur**, Jaipur, India

B.Tech in Computer Science

CGPA: 8.25 / 10

2024 – 2028
